# Introduction

## **Your Birthday, Your Year**

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

## **A Special Event**

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart,

unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

### **A Travel Decision**

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

# The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

## The Ascendant

## Your Looks, Your Presentation

### Active Reception

*Ascendant in Libra*

This year can involve stepping into the middle of things and fearlessly upsetting the applecart if you see that needs to be done. You look the part of a reformer, someone who has an improvement and even a solution, and the only way you're going to sell it is to play it to the hilt. That means getting involved in relationships that may be touchy at times and knowing when to pull back if you've really hit a raw nerve. In the end, however, you're a fixer - and the greatest talent involved is spotting what needs fixing, and what doesn't.

### Emotional Objectivity Arises

*Moon Square Ascendant*

Your reactions may be slowed and refined a bit this year by your concerns about what people are saying about you and how you're going to play to the home crowd. That can put a damper on spontaneity and cause a lot of self-corrections to be constantly in play. It's hard to know what you look like when your mirror is in others' hands, and not your own.

### Mental Objectivity Arises

*Mercury Square Ascendant*

Getting your point across in person may be subject to a lot of compromises this year, as you're going to have to fine-tune your personal pitch to please audiences other than the one present, should your presentation be quoted, or misquoted. That's sometimes a fine line to walk and still be convincing about what you say. When in doubt, write it out.

## Conserving Values Arises

*Venus Trine Ascendant*

You may find it easier to let people know what you want by body language alone, which makes communication swifter and more convenient this year. If you want it, it shows naturally and all comes together more easily to bring you satisfaction, without having to put it into words and negotiate the deal, whatever it's for.

## Examining Action Arises

*Mars Sextile Ascendant*

You'll be picking up a lot of energy and physical support from your friends this year, so don't hesitate to let the cheering section urge you on and even lend a hand in your efforts. The more enthusiasm happening around you, the stronger you'll be and the more work you'll get done as a result.

## Career Objectivity Arises

*Jupiter Square Ascendant*

You're going to see endless possibilities for yourself this year, sometimes to the point of going on rather too much about it and yourself. It's easy to get carried away with a good idea and repeat yourself when you should be getting on with things and be putting it into action instead.

## Spiritual Conservation Arises

*Neptune Trine Ascendant*

Creative interpretation of your personal presentation, the way you look to others, allows you a lot of freedom to play the part they want to see while still being yourself. It's not about the details, it's the general idea and façade that carries off the production, and you're the director.

## Examining Power Arises

*Pluto Sextile Ascendant*

Support from those around you makes you look like a shoo-in for whatever position you choose to take, which of course makes it happen. It's not an ego thing, so don't take credit – you're just the right person in the right spot, for the moment, and everyone sees that. Enjoy the free ride.

## The Midheaven

## Your Reputation, Career, Life Path

## Manage Expression

*Midheaven in Leo*

If they talk about you like you're ruling your world this year, don't do anything unnecessary to spoil the effect. If you're looked at like the source of sunshine, some of that light will be reflected back upon you, only to add to what's already really there.

# The Foundation for Your Year (continuation)

## Manage Emotional Experience

*Moon Opposite Midheaven*

Your feelings are centered around yourself and your home ground this year, which may distract from or channel some attention off career matters. Where there's a trade, you'll go for what supports you and where your loyalties lie, not self-promotion per se. So let yourself share the spotlight, there's room.

## Manage Intellectual Experience

*Mercury Opposite Midheaven*

Your mind may tend to wander back home when it is supposed to be traveling abroad doing business, but that's OK, as your compass needs a well-tended center to keep your footing sure. Part of it may be expressed in new ways of articulating your inner foundations, who you are, what you stand for inside.

## Manage Career Experience

*Jupiter Opposite Midheaven*

Interior growth is a major theme for the year, whether it's moving or expanding your living quarters or just enlarging your own inner inclusiveness, your extended home and family. Largesse is a keyword, and as your generosity increases, so do the factors in the environment that inspired it.

## The Sun

## Your Inner Personality and Style

## Communication

*Sun in 3rd House*

Self-expression is not an abstract idea for you this year, it's an everyday occurrence that requires you to articulate yourself to as many people as possible in the clearest way available. That means exploring multiple channels of communication and strongly identifying yourself with them. Talk may be cheap for some, but for you this year it's the heart of the matter and so you speak from the heart, even if it gets repetitious. Where action may have been the more effective path, discussion makes more money and goes more miles than barging ahead. When you make yourself clear, you're at the head of the pack.

## Ideas for Effort

*Sun Conjunct Mars*

It's going to be a forceful, high-energy year for you, so expect to be putting out all the time and feeling like doing just that. The heat in your kitchen is high, however, and some lower-keyed people may reasonably want to escape it, so don't push your pace on others not up to the task. You want help, not baggage.

## Ideas of Transformation

*Sun Conjunct Pluto*

You are in a long period of profound inner change, to the extent that you won't recognize yourself when you come out the other side. At the moment it may seem like you're coming to a dead halt in some ways, but that's necessary before a new direction can be established. Let passing things go, don't hold on – that's the only way to reach the new.

## The Moon

## Your Feelings, Reactions, Emotions

### Community Support

*Moon in Aquarius*

Your ability to see everyone's point of view this year goes up several notches, bringing with it the challenge of just what to do about it. You'll want to be all things to all people - it will just feel so right - but the challenge will be to resolve the inherent conflicts so brought about. Here your saving grace will be honesty, as when you put it all out on the table for all to see, you become the negotiator everyone turns to for help. It's all about taking turns, and you'll know who goes in what order because your natural instincts give you the right answers this year at least, so remember how you did it.

### Family Support

*Moon in 4th House*

Thoughts turn toward home this year, or rather feelings do, and along with them the perennial question: is home where the heart is, or where the house is? There are deeper levels of your inner foundations that imbue a house to make it a home, and as long as you're in touch with them, it can be anywhere you hang your hat. A lot more time than usual this year will be spent on considering and acting on just those sort of inner issues, which seem to rise of themselves for reevaluation despite whatever other efforts may seem to be occupying the front burner. The real nature of comfort and inner security is worth a second look.

# Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

## Mercury

## Your Mind and Intellect, Thoughts and Plans, Communication

### Practical Ideas

*Mercury in Capricorn*

Hard-headed plans that smack of experience and practical use offer more appeal than trying anything and everything new that comes to hand. Ambition requires that what you propose works and works well, so cutting out speculation and handing onto reality is what you'll choose when asked for your opinion.

### Communications

*Mercury in 3rd House*

Organizing your channels of communication is ahead this year, whether it's the written or the spoken word. Where and how you say it becomes increasingly important and you'll need a plan to make it all flow smoothly. The more information you can fit into each channel, the less pressure there will be.

### Career Thoughts

*Mercury Conjunct Jupiter*

Big plans are in the air this year, and your head will be exploding with countless new ideas that are new and exciting. The challenge will be to pick the ones to go with and put others on hold, even though you'd like to pursue them all. Extras you generously toss aside this year will be thankfully received, come back to you accordingly.

### Curator

*Mercury Trine Saturn*

Your thinking this year is unusually logical and orderly, which allows you to lay down some well-conceived foundations for projects in preparation. Unhurried solutions are usually the most lasting, and it takes a steady hand to put on the perfect finishing touches as well. From beginning to end, a deliberate pace makes for a robust resolution.

## Venus

## Your Needs, Wants, Desires

### Love of Community

*Venus in Aquarius*

Eclectic tastes and a broad range of options are what you'd like to see coming up, and you'll be happier savoring the many than limiting your options to the view, however intense. Perhaps it's that you don't want to miss anything, but the result is that you will have it all, so you can specialize later.

### Love of Home & Family

*Venus in 4th House*

To get what you want in life, it's important to be pleased with your own circumstances to begin with, so you radiate quality. This year you will want to pay some extra attentions filling out and feathering your own nest, so that when you leave home, it's just another brief escape from the palace, noticed by all.

### Inspiration

*Venus Conjunct Neptune*

Desire, like beauty, is in the eye of the beholder and if wishes were fishes the ocean would be you. It's that kind of year, when need fuels the imagination to flower into fantasy of every sort. Where the object of desire must remain outside, the experience lies within. Learn to tell the difference, this year.

## Mars

## Your Energy, Life Force, Excitement

### Efficiency Drive

*Mars in Capricorn*

Hard work doesn't mean long hours, but it does mean unflagging focus and a single purpose to get your job done. That approach will float your ambitions and support your success as long as you keep your eye on the ball. Not much room for frills or play, but when it's done you can bank on the launching pad you create.

### Drive to Communicate

*Mars in 3rd House*

This may be a talkative year, indeed, with a lot of energy thrown into sometimes frantic discussion, touching base, laying down lines of communication, forging new networks. The trick is to use all that effort efficiently and avoid repeating yourself by getting stuck in redundant tasks.

### Ideas of Control

*Mars Conjunct Pluto*

The temptation to break things that don't immediately yield to your touch is strong, and you'll do well to resist it this year unless extreme circumstances arise that require forceful measures. You may feel you have the right of eminent domain over others' right-of-way, but don't run roadblocks unless you can outrun the results.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

**Jupiter** **Ambitions, Goals, Possibilities**

**Management Career** *Jupiter in Capricorn*  
 Established principles are in the air this coming year, and expansion by contraction is the mysterious solution to the question "Quo vadis?" A conservative, no-nonsense approach that favors continuing the old to reach the new is your course. Of course, time marches on, even if you're sitting still. If that's your move, that's your decision.

**Communications Career** *Jupiter in 3rd House*  
 All the latest methods of communication are on deck for you, and simply keeping them all organized may be the challenge. New networks of opportunity abound to seize your attention, an abundance of signals coming in that require channeling to make them live up to their potential. Have fun with it!

**Keeping the Law** *Jupiter Trine Saturn*  
 This year the world at large is in the deepest sense of the word, coasting. In the background all appears to be working smoothly both economically and morally. This makes for profitable enough short-term actions, as long as you can pull out quickly. The real personal bonanza may be had by searching out the coming shift that changes everything and putting all your financial and moral assets on it.

**Saturn** **Caution, Wariness, Wisdom, Boundaries**

**Obstacle: Care** *Saturn in Virgo*  
 The devil is in the details this year, and those who haven't been picking up every stitch will find themselves tailored for a tumble. That especially goes for control freaks who aren't, in fact, in control and will be done in by their own rules. Those who have been attending their chores without fanfare, however, will find their ships come in. Be one of them.

## Obstacle: Community

*Saturn in 11th House*

Learning the meaning of tried and true may be an important lesson of this year, as you weed out those who are truly close from those who only seemed to be. This may involve some disappointment, but it also is confirming of what will last and you can count on. Some friends, really, aren't.

## Inventive Power

*Saturn Opposite Uranus*

This rare year provides you a background when new advances in theoretical science occur which take a long time proving, thanks to an often intransigent scientific establishment. The foundations for another wave of the future are being laid at this very time, no small thing. Find them, and get on board.

# The Stage You Share The Outer Planets

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

## Uranus **Discovery, Revelations, New Ground**

### Freedom: Giving

*Uranus in Pisces*

Spiritual discovery awaits, which will be mixed with sudden revelations of deceit and illusion both on the inside and outside for the populus at large. New dreams appear and then sometimes vanish, sheared away by hard realities resulting from inner and political denial. In the end, it's a step closer to sought-after ideals, but with some considerable disillusionment along the way.

### Freedom: Creativity

*Uranus in 5th House*

The muse is fickle this year, but when she arrives you'd better be front and center because the creative change will be loud and clear. Expect a bolt of inspiration from the blue and be ready to alter course on a moment's notice to accommodate it. You'd be sorry if you turned down gifts from above, however inconvenient.

## Neptune **Dreams, Hopes, and Fantasies**

### Embrace: Community

*Neptune in Aquarius*

This period sees the idealization of the common folk, even to the level of thinking they're essentially a lot better off than they are, even superior, and thus subject to all sorts of scams. The blessing is the discoveries involved in recovery from that. Epidemics are a hallmark of this time, so an extra eye on personal health hazards is in order.

## Release: Home

*Neptune in 4th House*

There's a soft light around the thought of home and hearth this year, which may be sometimes asking more of it than simply staying put can deliver, yet it is still comforting to retreat to your lair and dream. Put on rose-colored glasses when you're doing it, and you won't worry about minor dust gathering until it really needs attention.

## Pluto

## Necessity and Fate, Power, What Must Be

## Control: Practicality

*Pluto in Capricorn*

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

## Control: Ideas

*Pluto in 3rd House*

Information is power, your power this year if you use it wisely. The challenge will be wielding it with enough finesse so that you use the truth to your advantage and not simply take advantage of some aspect of the truth. Prioritizing your messages now is everything, so they ultimately ring true.

# Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

## Mercury Your Mind and Intellect, Thoughts and Plans, Communication

### Mental Accent

*Mercury Conjunct Mercury*

Your native mindset is reinforced this year, and you're a step further along in your fundamental approach to thinking and analysis. Essentially, you're revisiting your own mind, re-familiarizing yourself with what's unique about your thought processes and sharpening your wit based on a new plateau of self-awareness.

## Sun Your Inner Personality and Style

### Ideas for Effort

*Mars Conjunct Sun*

You'll be burning hotter than usual this year, and your sometimes fiery approach to selling yourself can be just what's needed to heat up passions all around. You'll have more energy to spare, to add to your endeavors in work or play, and you may tend to leave others behind who aren't up to your inner intensity.

## Mercury Your Mind and Intellect, Thoughts and Plans, Communication

### Career Thoughts

*Jupiter Conjunct Mercury*

Your brain teems with activity, too much to keep track of at times, so get what you can on paper for later consideration. Schemes may get larger than are manageable and need trimming later, so avoid implementation until you've done a careful critique - then you will have your best in the best of form.

## Ascendant Your Looks, Your Presentation

### Problems Appear

*Saturn Conjunct Ascendant*

Expect a year of testing when you feel like you're under the gun 24 hours a day. Shake off all dead weight and travel light with only what you absolutely need to get the job done. Give yourself extra time for everything, as unscheduled stoppages will be the order of the day.

## Featured Natal Positions (continuation)

### Sun

### Your Inner Personality and Style

#### Ideas of Transformation

*Pluto Conjunct Sun*

This period marks serious internal personality changes often keyed off by strong outer shocks like sudden loss, professional setbacks, or health problems. Essentially, it is an inner coming to terms with death - your own, other's, your goals and your desires. Gotta do it someday - might as well be now.

### Saturn

### Caution, Wariness, Wisdom, Boundaries

#### Manage Problems

*Midheaven Conjunct Saturn*

People are likely to hear more about your conservative side, if you have one, or invent one, if you don't. That's a good opportunity to be talked about as older, wiser, and more accomplished, but it won't get you an assignment on the front lines. It's a great chance to repurpose your previous achievements, however.

### Uranus

### Discovery, Revelations, New Ground

#### Insights Appear

*Ascendant Conjunct Uranus*

You're more than leading edge this year, you're leading with your edge, putting your most experimental foot out in front of you in hopes that your own special insight will make that a really big step. This can put you ahead of the pack, but it can also isolate you, so be ready to be the main or only defender of your cause.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Dec 30, 2008 to Dec 30, 2009

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

For a moment you can't believe you just heard yourself say that - solutions come pouring out of your mouth and you're sought out (or just stumbled upon) to provide them out of the blue. High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Great ideas abound, but don't buy everything you see until you give it a second, cooler look. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

**Values Are Apparent**

*Ascendant on Venus (PSR-SR)*

You look so good today you could kiss your mirror, but let someone else do that for you instead. *Midheaven on Ascendant (PSR-SR)*

You're beginning to see yourself getting noticed as a result of the last few months' efforts, and it might be well to double-check that they're getting the right message and are correctly passing on the image you'd like to build your reputation on. They should be reporting what you see in the mirror.

*Ascendant on Mercury (PSR-NA)*

For a moment you can't believe you just heard yourself say that - solutions come pouring out of your mouth and you're sought out (or just stumbled upon) to provide them out of the blue. Yes, you really are cleverer than you thought, and it's a couple of days to make the most of your own articulation.

# Conclusion

## **Conclusion: Now That You Know, Where Do You Go?**

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

### **1. Make Sure You're In The Right Place**

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

### **2. Keep Notes On Your Special Day**

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

### **3. Pay attention to what's in the text and use it well.**

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

### **4. Think Ahead To Next Year**

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

### **5. Take It In Context, Put It All Together**

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
